MORE FROM ARTWORX

BRIDGE 7.0 - Our classic bridge playing program has been extensively revised with improved bidding and play, digitized hi-res color card graphics, mouse support, digitized speech and a long list of new features including extensive editing and hand swapping options. You now can override a contract and even specify an opening lead. You can take back a bid or play, modify your partner's and opponent's bidding, select weak or strong two bids and more. Play contract or duplicate bridge, or the game that started it all– whist. Bridge 7.0 is the ideal way to get into a game without having to round up three additional players. **Macintosh and IBM**: $49.95
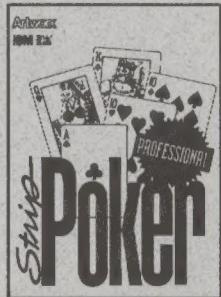

Linkword Language Series - The **Linkword Languages** provide an easy and very effective means of learning a foreign language. Available in Spanish, French, German, Italian, Russian, Japanese, Hebrew, Dutch, Greek and Portuguese, all programs come with an audio tape to assist in pronunciation. **Linkword** uses a system based on mental imagery - linking foreign words to acoustically similar English words to provide an easy-to-remember visual association. **Linkword Languages** are ideal for travelers, business people and first year language students. Available for all computer systems, $29.95 each

KALEIDOKUBES - This addictive game is so easy that you will be playing in minutes, yet so challenging that you will find it hard to quit. Tension builds as you play against the clock as you spin your kube to find the best position as quickly as possible. Each game of KALEIDOKUBES is different; you and your opponent (either human or computer) create the game board as you play. **C-64**, **Apple** and **Apple IIGS**: $19.95; **IBM** (includes **WINDOWS** version), **Amiga** and **Macintosh**: $24.95

STRIP POKER PROFESSIONAL - Our updated classic poker program combines the strategic play action of 5-card draw poker with some very different table stakes! Play against three female opponents simultaneously and the more you win, the more they take off! Features digitized hi-res Super VGA graphics plus digitized speech for all sound boards.
IBM, Macintosh and Amiga: $49.95.

jigsaw PINUPS - This tasteful adult jigsaw puzzle features VGA and EGA digitized graphics of 12 beautiful models in various pinup poses. Choose from five different piece sizes, with new jigsaw shapes computed each time the program is used. Digitized speech and hot spots in each puzzle elicit laughs, sighs and kisses when the appropriate piece is placed on the board, and a finished puzzle produces a vocal response from the pinup. **IBM**: $29.95

CENTERFOLD SQUARES - You are pitted against a provocative 'centerfold' opponent whose digitized picture is covered by a number of strategically placed squares. You and your opponent battle in a challenging game of skill to win each of these squares; the more you win, the more your opponent reveals! **Amiga, IBM** and **Atari-ST**: $29.95
